EXPERIENCE

ConDigital, Addis Ababa, Ethiopia — *Full Stack Developer*

January 2022 - March 2022

- Worked on building an Enterprise project for a subsidiary company K2N Construction.
- Collaborated with an agile team of 6, and helped prioritize and scope feature requests to ensure that the biggest impact features were worked on first
- Built extensive test coverage for all new features, which reduced the number of customer complaints.

Temaribet, Addis Ababa, Ethiopia — *Lead Software Developer*

May 2020 - May 2022

- Worked on RESTful APIs in Node that enabled internal analytics team to increase reporting speed by 24%
- Built an official website for the Temaribet company that is currently live.
- Developed UI and API for two mobile applications that are to be hosted any day now.
- Diagnosed issues causing slow speeds in applications, and documented the process to making the database query system more robust
- Participated in writing scalable code with a team of 4 interns and 1 developer for applications for a math course

Adama TVET and MSE, Adama, Ethiopia — *React Developer*

February 2021 - November 2022

- Worked with product managers to re-architect a multi-page web app into a single page web-app.
- Tested software for bugs and operating speed, fixing bugs and documenting processes to increase efficiency by 18%
- Built local dashboard managing site for staff members and supervisors.
